- 11. Harvard University
- 12. Furman University
- 13. Mount Holyoke College
- 14. University of Chicago
- 15. Indiana U-Bloomington...

*"Hundreds of thousands of tourists flock to the Hawaiian islands annually to embark on the vacation of a lifetime but what many people might not realize is that Hawaii contains a prestigious university with a long waiting list. The campus features views of the famous volcano Diamond Head and is located just a few steps from the famous Waikiki Beach. This campus location is one of the most beautiful places in the United States. Students are treated to extraordinary experiences studying at the campus run Lyon Arboretum and have unbridled access to the Polynesian Cultural Center, a hub for the history of the Hawaiian islands. Good luck getting any studying done living here!"*
